**Artists Statement:**

*As an artist I love watching the world...*

*I see an endless room of landscape:  
a continuous changeable process of interaction,  
full of movements and connections,  
with lights and elements as special interpretations.*

*I do want to make this stratification perceptible,  
by works as renewed creations of contemplative spaces...*

*Which the viewer may enter...*

Maria Klerx, 2021
